

French Curriculum

at Bronte Girls' Academy

Our Vision

At Bronte Girls' Academy, we believe that learning other languages enables young people to make connections with different people and their cultures and to play a fuller role as global citizens.

Studying French not only encourages an appreciation of different cultures and ways of life but also helps to strengthen our literacy skills in English as we develop a better understanding of how languages work.

We will develop our pupils' ability to communicate their thoughts and feelings and respond to those of other people using different media and interactive activities.

Learning French will give pupils better chances to enter the job market and will be a steppingstone to grasping other languages.

"He who knows no foreign languages knows nothing of his own."
Johann Wolfgang von Goethe

Outside of the classroom:

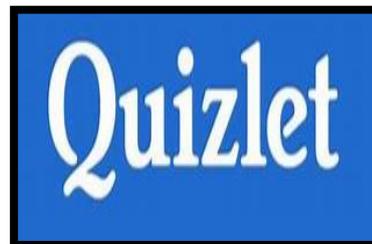

Outside the classroom lie many opportunities to improve our language skills and sustain our joy for language learning. Pupils often develop affinities with French songs; so much so that they learn the lyrics off by heart and quickly develop a wide range of vocabulary.
